

COOKIE POLICY

Cookies are a small text file that is placed on your computer, tablet or mobile phone when you access our website. They are not harmful to your devices and allow you to use many of the useful features of our website. Cookies have a lifetime. Some only last until you close your browser or a short time. These are called 'session cookies'. Some last longer though, for example, to enable a website to recognise you when you return to them. These are called 'persistent cookies'.

Cookies placed directly by a website owner (like us) are known as 'first party cookies' and most modern websites also use technology provided by other people/businesses, for example to provide online advertising. Cookies placed by other parties are known as 'third party cookies'.

MANAGING COOKIES

By continuing to use our website you are agreeing to our use of cookies. To manage all cookies placed on your computer, mobile phone or tablet device through your web browser settings, please consult your browser's guide or visit www.allaboutcookies.org or www.aboutcookies.org for more information. Some browsers are more sophisticated than others in managing these technologies, so if you want greater controls, it would be worth comparing a few of them. To manage cookies on your mobile phone please refer to your user manual.

If you are particularly concerned about third party cookies, you can often opt-out directly (such as Google Analytics, please visit <https://tools.google.com/dlpage/gaoptout>). Note, these providers may use cookies to power their opt-out service, so if you change your browser settings to block all cookies, their opt-out service may cease to work and you may still receive adverts.

Our website is designed to use cookies, so if you choose not to allow cookies you may not be able to access all of the features we provide (particularly if you are using a public computer), your browsing experience may become less personal to you and contain more error messages.
